Our policies explained

Public Liability Insurance

Public Liability Insurance covers you for injury to third-parties and provides compensation for damage to third-party property such as a client's home or their neighbour's property.

Employers' Liability Insurance

Employer's Liability Insurance covers you for the compensation of any claims made by employees who have been injured or become seriously ill as a result of working for you.

Contract Works Insurance

Covering risk to your client's home whilst work is in progress, Contract Works Insurance is a fantastic way for builders to add that extra bit of reassurance when working on a client's site.

FMB Building Work Guarantee

Offering an FMB Building Work Guarantee as part of your client package can help you stand out from the crowd, providing homeowners with cover to rectify defects in the event you cease trading. Cover is available up to 2, 6 or 10 years from point of completion.

New Homes Latent Defects Insurance

This essential insurance provides a fantastic 10 or 12 years' cover for the structural elements of the building - available for any new builds and conversions.

Professional Indemnity Insurance

Professional Indemnity Insurance provides protection for claims made against you for negligent services or advice given by you. It's there to take care of legal costs and can provide the compensation needed to right mistakes.
